

SRP Meeting Notes, June 29, 2012

Beyond the software review: what are the most important goals?

1. A stable release of preliminary version of GEMC/CLARA for users
2. Software workshop at the October CLAS Collab. Mtg. (Thurs. for half-day?)

What teams are best suited to do this work?

1. Release team: Dave H. (leader), Gagik, Vardan, Mauri, Johann, Sebouh
2. Workshop team: Dennis, Ken, Johann, Jerry, Cole

What other projects can be done in parallel?

1. Design of stage 3 tracking package (Veronique, Mac, Sebouh, Dave H.)
2. Geometry and calibration database services (Yelena, Johann)
3. Continued GEMC improvements (Mauri)
4. Combined EC/PCAL package (Mike W., Sebastian M.)
5. Particle ID development (Andrew, Harut)
6. TOF calibration software (Mike P.??)
7. Other projects?

What resources are necessary in the near future?

1. A dedicated Linux box for testing of the software release
