Professor Cynthia Keppel
Hampton University

Dear Professor Keppel,

I am writing to request permission to reproduce the following figure,

which you kindly adapted from a figure in your publication, N.-Baillie, *et al.*, *Phys. Rev. Lett.* **108**, 142001 (2012).

This material will be reproduced in the following work I am writing, to be published by Princeton University Press (the Press):

Working title of book: *Gauge Theories of the Strong, Weak, and Electromagnetic Interactions* (2nd ed.)
Anticipated date of publication: 2012

This image may also be used for promotional purposes.

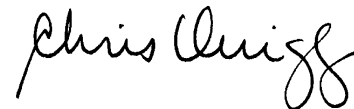

Please note that this is a work of scholarship with a limited audience. To achieve broad dissemination of this work to scholars, we intend to use digital media, including a secure, downloadable e-book, in addition to print editions. With that in mind, I request a non-exclusive license for the Press as follows:

1. **Territory:** World.
2. **Languages/Editions:** All languages.
3. **Media:** Print; media for people with reading disabilities; and any other print or digital medium in which the Press may decide to issue or license others to issue the book with your material.
4. **Edition(s):** Life of edition, all revised editions.
5. **Assignees:** Assignable, but only as part of assignment of the book as a whole.

I will acknowledge the source of your material in accordance with scholarly norms. If you require any particular form of acknowledgment, please let me know.

Thank you for your consideration of this request. Please feel free to contact me if you have any more questions about this project or if I can supply any more information.

Yours sincerely,

A handwritten signature in black ink, reading "Chris Quigg". The signature is fluid and cursive, with the first letters of "Chris" and "Quigg" being capitalized and prominent.

Chris Quigg
