# Reserve your Space in the ARC Library!

Users coming to Jefferson Lab for a stay of short or intermediate duration now have an attractive option for work space: the newly refurbished users space in the ARC building library at the west end of the Jefferson Lab campus. This space features 36 work stations with L-shaped tables and comfortable chairs, Ethernet ports and WiFi access. Several work stations have been equipped with Linux computers (which have access to the lab-internal network) and telephones. Lockers are available to securely store personal items and equipment. The large windows, quiet atmosphere and the library contribute to a pleasant working environment. A virtual tour of this space is available at https://physdiv.jlab.org/VirtualTours/ARC/ARC.html.

The ARC users facility as viewed from the North

Users can now **reserve seats** in this space **online**, in a fully auto-mated fashion. Make sure you have a nice seat to sit at before you ever come to the lab – sign yourself up at :

https://misportal.jlab.org/mis/apps/reservations/index.cfm

You may also contact Lorelei Chopard (Users Liaison) for help with reservations at lorelei@jlab.org

The Users Group Board of Directors strongly encourages users to make use of this facility – depending on demand, future improvements and upgrades are planned.
