User Liaison Updates

The User Liaison office is busy preparing summer student activities and all events that comprise the Users Group meeting. Please see below for announcements and other important information:

- The annual User Audit is underway. This requires sponsors to approve access for all user accounts. If you encounter issues with your computer account, contact your sponsor or the helpdesk (helpdesk@jlab.org).
- As of March 1, 2015, the user space located in the ARC will be unavailable for an extended period of time. If you are currently using any seat in this space, please contact the User Liaison (lorelei@jlab.org) to arrange alternate space.
- Beginning in FY 2015, the U.S. Department of Energy Office of Science (SC),

which is the primary sponsor of Jefferson Lab, will require that a limited set of information relating to your user project/experiment be transmitted to SC at the conclusion of the current fiscal year. A subset of this information, including your

New User space in the counting house 2nd floor.

name, institutional affiliation(s), and project title(s), will be publicly disseminated as part of an SC user facility user projects/experiments database on

the SC website, <http://science.energy.gov>.

- International Services and the User Liaison have been working with MIS to develop a new external registration portal. Many features and improvements have come from User feedback over the past few years. The goal is to streamline the process and to reduce paperwork and duplicate data entry. Rollout is expected late spring. If you are interested in beta testing, please send an email to: iris@jlab.org.

• Renovations of the Counting House 2nd floor are now complete. This includes a meeting room and short term User space for those running experiments. No permanent space will be assigned and items left behind will be removed regularly.

New J-1 Visa Regulations

Recent changes in J-1 regulations require Exchange Visitors sponsored by JSA/TJNAF to demonstrate sufficient proficiency in the English language. Exchange Visitors will be required to pass a proficiency test which is composed of 25 questions on grammar and word usage, vocabulary,

and reading comprehension. As a reminder, JLab offers English courses through Mango, our free online language training. Mango Language courses can be accessed on or off-site at this link: <http://connect.mangolanguages.com/jlab/login?u=333749>

Please make sure to use your JLab email address when completing your account profile. For complete details on this change and more please visit the site at: <http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=1bc531bf257789e45b3049bff8b50d64&r=PART&n=22y1.0.1.7.35#se22.1.62.114>

Are you getting JLab-scicomp Briefs?

Jlab-scicomp-briefs are for users of JLab's scientific computing resources, particularly the Experimental Physics' Data Analysis cluster and mass storage systems. Information emailed to this list is also posted on the <http://scicomp.jlab.org> website for the time that it is useful information; this is the website that "farm" users visit to check their cluster usage, disk space, and other job information.

To join the mailing list, please visit the Computer Center webpage below: <https://mailman.jlab.org/mailman/listinfo/jlab-scicomp-briefs>.

Users Group Workshop and Annual Meeting

The annual summer Users Group Meeting will take place June 1-3, 2015, at JLab. All Users and students are encouraged to attend. Registration will open sometime in April.

Currently, the UGBOD (Users Group Board of Directors) is working hard securing speakers and creating a program for the meeting. If you have any suggestions on speakers and/or topics, please email the chair Dipangkar Dutta

(d.dutta@msstate.edu) or the UGBOD chair John Arrington (johna@anl.gov).

A special note to advisers and students. JSA has once again approved funding to cover student registration fees, lunches during the meeting and the annual poster prize competition. If you have any questions regarding student activities, please contact the UGBOD Student Rep Melissa Cummings (melissac@jlab.org).

2014 JSA Thesis Prize Call for Nominations

The UGBOD will award the "2014 JSA Thesis Prize" for the best Jefferson Lab related thesis at the Annual Users Group meeting, scheduled June 1-3, 2015.

For the 2014 competition, the deadline is March 2, 2015 (we thank JSA for once again fully funding this prize). A complete package requires a nomination letter by a senior scientist giving the name and institution of the person being nominated and the names of three people who will send letters of recommendation, along with a copy of the thesis. All materials must be submitted electronically. The three letters of recommendation must be sent before the deadline, as well; it is up to the nominator and the candidate for the Prize to follow up on this.

Theses completed during the calendar year 2014 are eligible, as well as theses completed during the last quarter of 2013

(if they haven't been submitted before). The thesis prize submissions will be judged initially by members of the UGBOD, followed by a panel of independent experts to select the final winner. Criteria for evaluation include quality of the written thesis, contribution of the student to the work, and contribution to JLab physics/community.

All materials must be sent by email to Lorelei Chopard (loirelei@jlab.org). Please contact the chair of the UGBOD (johna@anl.gov) for any questions.

This project is supported by the JSA Initiatives Fund Program (<http://www.jsallc.org/IF/IFIndex.html>), a commitment from the JSA owners, SURA and PAE Applied Technologies. Initiatives Funds support programs, initiatives, and activities that further the scientific outreach, promote the science, education and technology of the Jef-

erson Lab and benefit the Lab's extended user community in ways that complement the Lab's basic and applied research missions.

Feature Recipe From: Marti Bennett

Crockpot Bourbon Chicken

Ingredients:

2 lbs chicken breasts or thighs.
1/2 c soy sauce (low sodium or less to taste)
1/2 c oil (I used canola)
1/2 c vinegar (I used rice vinegar)
1/2 c bourbon (I used Crown Royal)
1/2 c brown sugar
2 Tbsp sliced fresh ginger (powder won't work)
2-3 cloves crushed fresh garlic
5 green onions - chopped

Instructions:

Place everything in crockpot, stir to mix and cook on low 6-7 hrs.
Serve over rice (I used Jasmin Rice)
Bon Appétit!!!

New Students and Users

To all new Users and those who will be bringing in new students this summer or beyond: we have updated the Student Orientation Brochure and New User Checklist. All students and scientists should register before coming to JLab at: <http://wwwold.jlab.org/hr/jris/processing.html>

Computer accounts can be coordinated and requested through the User Liaison (lorelei@jlab.org).
<https://cc.jlab.org/system/files/UserAccountRequest2010.pdf>

Almost all training can be completed online before visiting. To speed up the badging process, please have students and new Users complete the following training before they come to the lab:

- [SAF100](#)- Environmental, Safety and Health Orientation
- [GEN034U](#)- Security Awareness for Users

(When completing training, your name and email address must match your registration)

A condensed document for new users is now available in the New User Checklist for:

U.S. Citizens: https://www.jlab.org/sites/default/files/documents/us_checklist.pdf

Non-U.S. Citizens: https://www.jlab.org/sites/default/files/documents/non-us_checklist.pdf
