

CIPANP18 Third Bulletin of April 15, 2018: **Important Deadlines**
cipanp18.berkeley.edu.

The 13th Conference on the Intersections of Particle and Nuclear Physics (CIPANP18) will be held May 29-June 3, 2018, at the Hyatt Regency Indian Wells, near Palm Springs, CA.

April 20 is a crucial date: the end of early-bird registration and also the end of the period when our room block is guaranteed to be available. So if you would like to attend CIPANP18, **register now**. See our [web site](#). There is a 10% increase in the registration fee after April 20.

Public talk: Saturday June 2 is a featured astrophysics day. Barry Barish will give the CIPANP18 evening public talk on Black Holes and Gravitational Waves. Early in the day there is a special plenary session on the neutron star merger GW170817 and its optical afterglow.

Abstracts: The conference conveners will continue to accept contributed abstracts beyond the first deadline of April 20 in the areas:

- Physics at High Energies
- Precision Physics at High Intensities
- Cosmic Physics and Dark Energy, Inflation, and Strong-Field Gravity
- Neutrino Masses and Neutrino Mixing
- Tests of Symmetries and the Electroweak Interaction
- Dark Matter
- Particle and Nuclear Astrophysics
- Heavy Flavors and the CKM Matrix
- QCD, Hadron Spectroscopy, and Exotics
- Parton and Gluon Distributions in Nucleons and Nuclei
- Nuclear Forces and Structure, NN Correlations, and Medium Effects
- Quark Matter and High Energy Heavy Ion Collisions

Abstract submission: Abstract submission is done through the conference's Indico site, as described on the main web page. Note that this first requires setting up an Indico account (see website instructions). Abstracts submitted after April 20 will continue to be eligible for oral presentation.

Plenary talks: The plenary talk schedule is available on the web site.

Financial support: We extended the deadline for applying for financial support to **April 19**, though our capacity is nearly exhausted.
