

Yale Department of Physics announces the inaugural **Mossman Postdoctoral Fellowship in Physics**

The background image shows a multi-level library with a high ceiling and a complex grid of recessed lighting. The central focus is a large, multi-story bookshelf structure with glass railings. The shelves are filled with books, and the lighting is warm and ambient. A person is visible in the distance on the right side of the image.

The Fellowship is intended to support promising physicists in the early stages of their careers. The Mossman Fellowship is open to all fields in physics and will provide a three-year appointment with a competitive stipend, a \$5,000 per year discretionary research fund, and comprehensive health insurance.
