

NS³ NUCLEAR SCIENCE SUMMER SCHOOL

August 2-6, 2021 Michigan State University

NS³ is a summer school that aims to introduce undergraduate student participants to the fields of nuclear science and nuclear astrophysics. NS³ will be hosted by the National Superconducting Cyclotron Laboratory (NSCL) / Facility for Rare Isotope Beams (FRIB) at Michigan State University (MSU). The school will offer lectures and activities covering selected nuclear science and astrophysics topics. In 2021, NS³ will be held online for the second straight year.

Application Deadline: May 28, 2021

apply online: nscl.msu.edu/researchers/NS3.html

For questions about the school and/or the application process please email: ns3@nscl.msu.edu
