

Beijing, 2021

**The 10th INTERNATIONAL WORKSHOP ON CHIRAL
DYNAMICS 2021 (CD2021)**

November 15-19 2021, Beijing, China

First Circular

This is the first circular of the 10th International Workshop on Chiral Dynamics (CD2021), to be held in Beijing, China in the period of 15-19 November, 2021 and hosted by the Institute of High Energy Physics, Chinese Academy of Sciences. This series of workshops started in 1994 at MIT and will take place in Beijing, from November 15 to 19 2021, and will be hosted by the Institute of High Energy Physics. The purpose of this workshop series is to bring physicists together who are active in this field, as well as those who are interested, to discuss and debate the most recent achievements and future developments.

Due to the COVID-19 pandemic, the CD2021 workshop will take place online. The conference website is <https://indico.ihep.ac.cn/event/14770>. And there is no registration fee for this workshop. The scientific program includes a few plenary sessions and three parallel sessions:

- **Goldstone-Boson Dynamics**
- **Hadron Structure**
- **Few-Body Dynamics**

We are now calling for submission of abstracts, and the deadline for abstract submission is **October 25, 2021**. We would appreciate it if you could forward this announcement to any interested colleagues. For any more information, please feel free to send an email to cd2012@ihep.ac.cn.
