

CHEP 2026

Xdata-intensive interdisciplinary sciences

28th Conference on Computing
in High Energy
and Nuclear Physics

25-29 May 2026
Chulalongkorn University
Bangkok, Thailand

Registration and abstract submission
open on 1 October 2025

<https://indico.cern.ch/e/chep2026>

Scientific Programme

1. Data and metadata organization, management and access
2. Online and real-time computing
3. Offline data processing
4. Distributed computing
5. Event generation and simulation
6. Software environment and maintainability
7. Computing infrastructure and sustainability
8. Analysis infrastructure, outreach and education
9. Analysis software and workflows

Other sciences making use of big data applications and large-scale data processing are also welcome.
