RESEARCH ASSISTANT PROFESSOR POSITION
EXPERIMENTAL NUCLEAR PHYSICS
UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

The Department of Physics invites applications for a full-time Research Assistant Professor position in the areas of Experimental Nuclear Physics, beginning as early as April 1, 2012. Appointments at the Research Assistant Professor level will be given preference, but appointments at a higher level will be considered for exceptionally well-qualified candidates. A Ph.D., or equivalent, is required, along with the ability to conduct a vigorous research program. The successful candidate will have opportunity to collaborate with current faculty on several hadron physics experiments (PHENIX, FNAL-E906 and COMPASS). Our group also participates in neutrino oscillation, double beta decay, and neutron EDM experiments. Salary will be competitive and commensurate with qualifications. For full consideration, applications should be received by February 29, 2012, but applications will be accepted until the position is filled.

To apply for this position, please create a candidate profile at <http://jobs.illinois.edu> and upload a curriculum vitae, a list of publications, a brief description of research interests and plans, and the names of three people who can provide letters of recommendation. Please contact Margie Gamel at 217-333-3762 or mgamel@illinois.edu for further inquiries or questions.

Illinois is an Affirmative Action/Equal Opportunity Employer and welcomes individuals with diverse backgrounds, experiences, and ideas who embrace and value diversity and inclusivity. (www.inclusiveillinois.illinois.edu)
