

Rheinische Friedrich-Wilhelms-Universität Bonn

The Mathematisch-Naturwissenschaftliche Fakultät at the University of Bonn has an immediate opening for a

FACULTY POSITION (PROFESSUR W2) Experimental Hadron Physics

at the Helmholtz-Institut für Strahlen- und Kernphysik.

The Department of Physics and Astronomy invites applications for a tenured Professor position (W2) in experimental Hadron and Nuclear Physics. The successful applicant is expected to complement our existing strengths in Hadron Physics with electromagnetic probes in the framework of the SFB/TR 16 "Subnuclear Structure of Matter". In the long term contributions to the future FAIR-project are expected.

The candidates are expected to teach regular courses in experimental physics (Diplom, B.Sc., M.Sc.) and support undergraduate education in the respective areas.

Formal requirements are regulated by § 46 HG (NRW). The University of Bonn is an equal opportunity employer and encourages applications from female scientists. The University of Bonn is committed to employing more handicapped individuals if equally qualified and especially encourages them to apply.

Applications including a CV, a list of publications, and a statement of research interests should be sent until **June 30, 2012** to: Vorsitzender der Fachgruppe Physik-Astronomie, Endenicher Allee 11-13, D - 53115 Bonn, Germany.
