

Assistant Professor Position in Experimental Nuclear Physics at Duke University

The Department of Physics at Duke University in Durham, North Carolina invites applications and nominations for a tenure-track position at the assistant professor level in the area of experimental nuclear physics, broadly defined. Current research in the department in this area includes experiments in electroweak interactions, neutrino physics, hadron structure and nuclear astrophysics. The appointment begins in fall 2013. The successful candidate should show a strong commitment to research and teaching.

Applicants should send a curriculum vitae, statements of research and teaching goals, and arrange to have at least three letters of recommendation sent to npsearch@phy.duke.edu. Complete applications, including letters, received by November 30, 2012 will be given full consideration. Inquiries about the position should be sent to Calvin Howell, the Chair of the Search Committee, at howell@tunl.duke.edu with the message subject "NP Search".

Duke University is an Equal Employment Opportunity/Affirmative Action Employer. We value diversity in all of its many facets and meanings.
