Alexander Kiselev
Brookhaven National Laboratory,
Project: eRD110

Dear Alexander,

We are writing to you in response to your proposal for EIC Project Detector R&D entitled “eRD110 Photosensors for EIC Detectors”, submitted by you on July 1, 2024, applying for FY25 funding.

We reviewed the situation and your proposal carefully and in accordance with the project’s priorities, planning status, and the overall funding situation for project R&D, **\$27,000** are awarded to eRD110 for FY25.

The funds are divided up as follows:

Institution	Contract Lab	Funding
INFN	JLAB	\$20,000
BNL	BNL	\$7,000

The project R&D funding will be transmitted via one or more R&D subcontracts with JLab and BNL. We ask your INFN colleagues that are funded by JLab to get in touch with Christine Fragapane (chummel@jlab.org) and provide the necessary information for the FY25 contract. For the BNL part please get in touch with Anna Mendez (amendez@bnl.gov). You will have to provide a Statement of Work for BNL.

We will contact you frequently to learn about the status of your R&D. Note also that is mandatory to participate in the Detector Advisory Committee (DAC) R&D review meetings.

With best regards,

Thomas Ullrich and Rolf Ent

CC: Elke Aschenauer, Anna Mendez

Details on the needed documents for BNL

- The **statement-of-work** (SOW) should include the proposed work to be performed, milestones, deliverables and estimated timeline.
