

TDIS collaboration meeting July 20th, (21st?) 2020

9:00 - 9:05 am Thia – welcome *confirmed?*

9:05 - 9:25 am Bogdan - SBS status (15+5) confirmed

9:20 – 10:00 am Nilanga/Kondo - mTPC design status (25+10)

10:00 - 10:20 Dipangkar - target test results and plans (15+5) *confirmed*

10:20 - 10:45 Steve- tracking update (20+5)

- coffee break - 30min

11:15 - 11:45 am Ed/Marco - SAMPA chip and test stand results/status (20+10)

11:45 - noon Paul/Simona - DAQ and trigger development (10+5)

noon - 12:20 pm Dipangkar/Simona - LAC refurbishing update (15+5)

- Lunch break -

1:15 - 2:00 pm: Simulation updates (2-3 talks I am guessing?)

- Rachel: G4SBS simulation/digitization update *confirmed*

- Carlos: Evaluation of rates in mTPC *confirmed*

2 - 2:20 pm Eric - HERMES RICH update/status, thoughts on conversion to threshold counting (15+5) *confirmed*

2:20-2:35 Narbe - slow controls plans (10+5)

2:35 - 2:50 Thia - summary and path forward, discussion *confirmed?*

Suggestions:

* invitations:

- Tim Hobbs: TDIS experiment in the context of EIC and other measurements (~30 min)

- Patrick Barry: modelling pion structure functions (~30 min)

* Split the meeting in 2 mornings instead of 1 full day to accomodate better for European colleagues, and allow extra time for theory speakers.

* Explicit more what would the contributors are expected to talk about

TDIS collaboration meeting July 20th, 21st 2020
alternate tentative schedule

July 20th

9 - 9:05 am Thia – welcome *confirmed* ?

9:05 - 9:25 am Bogdan - SBS status (15+5) confirmed ?

9:20 - 10 am Nilanga/Kondo - mTPC design status (25+10)

10:00 - 10:20 Dipangkar - target test results and plans (15+5) *confirmed*

10:20 - 10:45 Steve - tracking update (20+5)

- coffee break - 30min

11:15 - 11:45 am Ed/Marco - SAMPA chip and test stand results/status (20+10)

11:45 - noon Paul/Simona - DAQ and trigger development (10+5)

- lunch break ?

1:30 pm ??? : theory talk (Tim Hobbs Or Patrick Barry) TBC

adjourn

July 21st

9:00 - 9:45 am: Simulation updates (2-3 talks I am guessing?)

- Rachel: G4SBS simulation/digitization update *confirmed*

- Carlos: Evaluation of rates in mTPC

9:45-10:00 Narbe - slow controls plans (10+5)

10:00- 10:20 am Simona?- LAC refurbishing update (15+5)

10:20 - 10:40 am Eric - HERMES RICH update/status, thoughts on conversion to threshold counting (15+5) *confirmed*

- coffee break – 30min

11:10 - 11:30 Thia - summary and path forward, discussion *confirmed?*

11:30 theory talk (Patrick Barry Or Tim Hobbs) TBC
